

Hubbell Elementary Academic Honesty Policy

Hubbell Elementary School empowers diverse learners through inquiry-based opportunities that promotes lifelong learning.

Hubbell is dedicated to upholding the academic integrity of its program. Every classroom is dedicated to teaching the learner profiles and attitudes. Central agreements are created around the learner profiles and attitudes in each classroom at the beginning of the year. Discipline procedures follow the Responsive Classroom model, as established at the school.

Teachers encourage honest, creative, critical PYP work by:

- creating inquiry-based learning and assessment tasks focused on the process as well as the outcome.
- discussing when help from home is appropriate with co-workers, students, and families (at the PYP level, we recognize that help is appropriate at times).
- teaching students to appreciate the value of creating their own pieces of work.
- Teaching students how to reference the work of others at appropriate developmental levels.
